

# **FIRULAIXCOIN**

## WHITE PAPER

[firulaixcoin.finance](http://firulaixcoin.finance)

# INTRODUCTION

Inspired by the Viringo dog "Peruvian Hairless Dog" for the creation of the token. Its approach is to safeguard the record of the data of an entire life of the animal and preserve the information of the genealogical descent in a very safe and efficient way. We will promote a pet token trade in all clinical establishments, stores and airports and with the same owners.

## MY OBJECTIVE

Firulaix es una plataforma de registro civil desarrollado con tecnología BLOCKCHAIN, programado para identificar a todos los caninos, felinos, animales en cautiverio, silvestres o de granja, con un chip que cuenta con un código único mundial y será vinculado con todos los datos requeridos para registrarlos en blockchain, adicionando un smart contract y todo ello, fomentará la formalización del sistema de tenencia animal responsable a nivel mundial.

## DISCLAIMER

Firulaix, which includes but is not limited to the general project, token, website, smart contracts and any application ("firulaix"), as presented in this concept document, is not a licensed financial or payment service, without license or exempt of any kind and in any jurisdiction. Any terminology used in this whitepaper, on the website or within the application is intended to be a basic reference only, without any effective or legal meaning of the same terms in a regulated and / or financial environment. Firulaix is a decentralized project promoted by the QOLKREX foundation. Open source smart contracts, with security auditing, permanent and not modifiable in any way. The FIRULAIX COIN token is strictly a utility token in all jurisdictions and is not and cannot be considered a "security" or regulated token of any other kind. FIRULAIX is in no way electronic money and / or fiat money, or an asset-backed stablecoin, whether global or limited in scope. This Whitepaper taken in itself is not a contract or contractual agreement of any kind, nor is it an invitation, request or offer to invest in FIRULAIXCOIN. Any user of FIRULAIXCOIN declares and guarantees that said user has received the appropriate technical, administrative, regulatory and legal advice before and after accessing and / or reading this Whitepaper or the website, and / or using any part or element of FIRULAIXCOIN.

# Abstract

**Firulaix. Its mission is:**

Register all animals and clinical history, rescue those most in need, educate and focus on animal adoption by creating them mainstream with new concepts such as rewards, personalized NFT's as digital identity, encourage the use of the "FIRU" token within the world to encourage donations, support shelters, rescuers, volunteers and friends of animals.

**Firu Shop**

It is a store of articles promoted by the QOLKREX foundation. It will also encourage sales of many souvenir items. This will serve to support the foundations of the foundation with the use of their own favorite token in the real world. The proceeds will benefit the project and help more animals in need.

**Firu Wallet**

Firu will have its own portfolio for users who use the Firulaix token, in which it will be possible to do all the monitoring of their credits obtained from transactions, portfolio balances, currency valuation, and constant updates.

**Firulaix NFTs**

Our largest project in development is our NFT market. We will allow users to buy / auction their own NFTs. This will help donate a% to help rescue and register pets.

# Values

## PROJECTION

Firulaix is developed by the QOLKREX foundation. Our projection is to register all pets, farm animals (fish, cattle, etc.) and wild animals in captivity (zoos) or in protected reserves.

## COMMUNITY

FIRULAIX will be the largest community of petlovers worldwide. We strive to include all animal lovers in the world. We have a community on Telegram, Twitter and Reddit.

## SOCIAL RESPONSABILIDTY

Firulaix, as a responsible and respectful brand with the world animal ecosystem, focuses on social responsibility linked to the concept of respect, through dialogue and articulated work, equating the role of all participants in the system and consequently, generating relationships of trust in the areas of operational influence. Since the work of our project has an unlimited time, it is essential to contribute to the progress of the communities through the implementation of new sustainability models that generate greater opportunities over time.

## LONGEVITY

Our ecosystem and foundation will always be the product of our work and the result of the effort that drives the activities we carry out. Our token is just a component of the project that involves the commercial part; our main foundation is the civil registration of pets and animals in our Blockchain. They will finally last for a lifetime.

# FirulaixCoin

It is a smart contract, ERC20 on the Moonriver Blockchain (MOVR) that supports a system for the registration of animal identification microchip codes. This offers the security and information of your pet anywhere in the world.

The usability of the "FIRU" token boasts extremely low fees, the low fees have allowed MOVR to become one of the most widely used blockchains for decentralized finance (Defi). MOVR uses a token protocol developed by the Moonbean Foundation.

# Ecosystem

**Exchange - FIRU LP - farming - NFT farming**

**Register**

The registration will be carried out by implanting a chip with a unique code. This code will be registered through a transaction in the Blockchain that will contain all the information about the animal (name of the owner, name of the pet, date of birth, breed, sex, age, address, among others).

## **balance and development**

We have a large team of programmers, designers, content creators, social media administrators with experience in Blockchain and cryptocurrencies that works and supports the community.

## **Foundations**

Shelters, foundations, adoption houses and voluntary houses will be the most important component of our project. Our purpose is to help pets and owners.

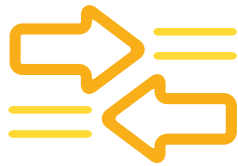

## **Partner**

We have the support of private companies such as clinics, veterinarians and the international transport of pets in case of virtual adoption.

# Firu Map

## Q2 – BETA Miniverse.

April – June 2022 .

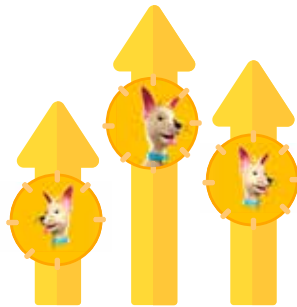

BETA tests for the World Animal registry (Honduras, Guatemala, Ecuador, Colombia, El Salvador and Peru).

Delivery of keys for the registration entities.

Registries (registration entities, shelters and pets).

Queries (verification of registration entities, registered shelters, animal searches by ID and by connection to your wallet).

Android connection in the Swap (Floor 2 FIRU

## Q3 – White March

July -September 2022 .

Our white march begins and real tests of the records.

Smart contracts to add liquidity in our miniverse.

Creation of APIs for W.A.R. (World animal registry) usability services.

Distribution of registration chips to W.A.R. associates.

Hardware protocols and international pet card..

## Q4 – Virtual Adoptions

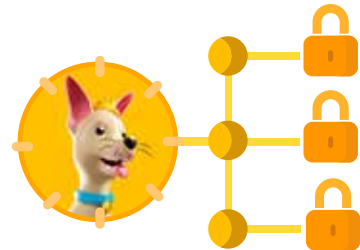

October – December 2022 .

The Shelters space is enabled in our miniverse.

Smart contract for farming FIRU's.

Connections API for Ecommerce.

Chrome extension Qolkrex Wallet and Android.
